

## **NEW PLASTIC SLALOM BOAT AVAILABLE IN CANADA!**

Mike Neckar, original founder of Necky Kayaks, is at it again! Under his new company name Delsyk Design, and in association with Galasport, he is producing a plastic slalom boat that just might revolutionize the sport.

The design is based on the Galasport Toro, the boat Alexander Grimm paddled to a gold medal at the Beijing Olympics.

This boat is remarkably easy to paddle, yet still provides the high performance of a full-on composite design – and it is super strong and durable!

This is the river runner every slalom athlete has always wanted, and the boat that just might bridge the gap to the recreational market. For the paddler who is tired of paddling sluggish freestyle boats, or just looking for something new, this boat opens the door to a whole new way of paddling – fast!

### **Specs:**

Length 335cm

Width 61cm

Weight 15-16kg (34-36 lbs)

Cockpit - standard play boat size

Seat – adjustable composite

Footpegs – adjustable aluminum

Pillars – full length minicell

For pricing,
